

ASEPTOPRINT® Liquid

Concentrate for the disinfection of dental impressions.

Intended Purpose

ASEPTOPRINT® Liquid is a concentrate for the disinfection of dental impressions made of alginate, polyether, polysulfide, A-silicone, and C-silicone. ASEPTOPRINT® Liquid does not affect the dimensional stability of dental impressions.

Intended User

The product is intended for use by dental and healthcare professionals who have knowledge of the disinfection of medical devices. The product must not be used directly on patients.

Instructions for Use

For your protection, wear disposable gloves and safety goggles. Prepare the working solution according to the dosing table. Immerse the dental impression and impression tray completely in the disinfectant solution. Adhere to, but do not exceed, the indicated contact time. After disinfection, rinse the dental impressions thoroughly under running water of at least drinking-water quality for 10 seconds. Replace the working solution daily or when visibly contaminated. A list of compatible and incompatible materials is available on our website. If you are unsure about the material composition of the medical device to be disinfected, contact the manufacturer before use. Any serious incident that has occurred in relation to the device should be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Limitation

FOR PROFESSIONAL USE ONLY. Do not mix with other products. Ensure that all visible soiling has been removed before disinfection. Failure to adhere to these limitations may reduce the efficacy of the product, thereby increasing the risk of infection.

Handling

DANGER H302 Harmful if swallowed. H314 Causes severe skin burns and eye damage. H410 Very toxic to aquatic life with long lasting effects. P280 Wear protective gloves/protective clothing/eye protection/face protection. P301 + P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P501 Dispose of contents/container in accordance with local and national regulations. Further information can be found in the Safety Data Sheet available on oroclean.com.

Storage

Store in a cool, dry and well-ventilated place. Keep away from direct sunlight, heat, and open flame. Storage temperature: < 30 °C. Dispose of the product after expiry date.

Physical Properties

Physical state: Clear, slightly viscous liquid	pH-value: 10.5-12.5
Colour: Light yellow	Shelf life: 36 months
Scent: Aromatic	

Composition in 100 g

100 g contains 30 g benzalkonium chloride, auxiliaries and water.

Effective Spectrum

Bactericidal	EN 13727*, EN 14561#	3% in 3 min
