

ULTRACLEAN-3

Alkaline concentrate for the cleaning of surgical and dental instruments. Suitable for use in ultrasonic cleaning devices.

Intended Purpose

ULTRACLEAN-3 is a concentrate for the cleaning of surgical and dental instruments in an ultrasonic cleaning device.

Intended User

The product is intended for use by dental and healthcare professionals who have knowledge of the disinfection of medical devices. The product must not be used directly on patients.

Instructions for Use

For your protection, wear a laboratory gown, household gloves and safety goggles. Prepare the working solution according to the dosing table. Run an ultrasonic cleaning cycle for 30 minutes. After cleaning, rinse the instruments thoroughly under running water of at least drinking-water quality for 10 seconds. Replace the working solution daily or when visibly contaminated. Adhere to the reprocessing recommendations of the instrument manufacturer. Not suitable for the cleaning of color-coded instruments or instruments made of natural bristles, nylon, or aluminum. A list of compatible and incompatible materials is available on our website. If you are unsure about the material composition of the medical device to be disinfected, contact the manufacturer before use. Any serious incident that has occurred in relation to the device should be reported to the manufacturer and the competent authority of the Member State in which the user and/or patient is established.

Limitation

FOR PROFESSIONAL USE ONLY. Do not mix with other products.

Handling

DANGER H290 May be corrosive to metals. H314 Causes severe skin burns and eye damage. P260 Do not breathe fume/mist/vapours/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
