

# SAFETY DATA SHEET

according to Regulation (EC) No 1907/2006 (REACH) Article 31, Annex II as amended

# SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

# 1.1 Product identifier

| Product name:                 | actisolve <sup>®</sup> alcolite wipes |
|-------------------------------|---------------------------------------|
| UFI:                          | 0VXW-G8N6-2001-6ARC                   |
| Substance type:               | Mixture                               |
| Use of the substance/mixture: | Surface disinfectant                  |

# 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses:

actisolve<sup>®</sup> alcolite wipes are ready-to-use disinfectant wipes with a low alcohol content for the disinfection and cleaning of surfaces of non-invasive medical devices. The product can be safely used on sensitive medical devices such as treatment chairs with high-gloss surfaces. The disinfectant wipes are compatible with the most commonly used materials of medical devices as well as acrylic glass and artificial leather.

| Uses advised against:       | Do not use for purposes other than those prescribed. |
|-----------------------------|--|
| Recommended restrictions on | For professional use only.                           |
| use:                        |  |

# **1.3** Details of the supplier of the safety data sheet

|            | Manufacturer  | EU only representative  |
|------------|---|---|
| Address:   | United Disinfectant Manufacturers AG<br>Allmendstrasse 21<br>8320 Fehraltorf<br>Switzerland | United Disinfectant Manufacturers AG<br>Dr. Grass-Strasse 12<br>9490 Vaduz<br>Liechtenstein |
| Telephone: | +41 (0)55 511 03 33   |   |
| Email:     | info@udm.swiss  | info@udm.li   |
| Website:   | www.udm.swiss   | www.udm.li  |
|            | Downstream user/importer/distribu   | itor  |
| Address:   | United Disinfectant Manufacturers AG<br>Dr. Grass-Strasse 12<br>9490 Vaduz<br>Liechtenstein |   |
| Telephone: |   |   |

#### Person responsible for preparing the SDS

Lee Moi Wong | Research & Development | Chief Research Officer (CRO) Telephone: +41 (0)55 511 03 33 Email: ra@udm.swiss

# 1.4 Emergency telephone number

Emergency telephone number: 112

\* Please check the above numbers regularly as they might be subject to change.

# **SECTION 2: HAZARDS IDENTIFICATION**

# 2.1 Classification of the substance or mixture

#### Classification according to Regulation (EC) No 1272/2008

| Hazard type     | Hazard category | Hazard statement code(s) | Classification procedure           |
|-----------------|-----------------|--------------------------|------------------------------------|
| Physical hazard | Flam. Sol. 1    | H228                     | On basis of test data.             |
| Health hazard   | Eye Irrit. 2    | H319                     | Harmonised (legal) classification. |

The full text for all H-statements is displayed in section 16.

# 2.2 Label elements

Labelling according to Regulation (EC) No 1272/2008 Hazard pictograms:

|                                  | GH                    | S02   | GHS07  |
|----------------------------------|-----------------------|---|--|
| Signal word:                     | Danger                |   |  |
| Hazard statements:               | H228                  | Flammable solid.  |  |
|                                  | H319                  | Causes serious eye irrita                               | ation.   |
| Precautionary statements:        | P210                  | Keep away from heat, he other ignition sources. N       | ot surfaces, sparks, open flames and o smoking.  |
|                                  | P233                  | Keep container tightly clo                              | osed.  |
|                                  | P280                  | Wear protective gloves/p<br>protection.                 | protective clothing/eye protection/face  |
|                                  | P305 + P351 +<br>P338 |   | ously with water for several minutes.<br>if present and easy to do. Continue                                 |
|                                  | P337 + P313<br>P501   | -   | Get medical advice/attention.<br>tainer in accordance with local and   |
| Supplemental information:        | Not applicable.       |   |  |
| Other hazards                    |                       |   |  |
| PBT or vPvB properties:          | persistent, bioa      |   | oonents considered to be either<br>T), or very persistent and very<br>or higher.                             |
| Endocrine disrupting properties: | endocrine disru       | pting properties according<br>ulation (EU) 2017/2100 or | components considered to have<br>to REACH Article 57(f) or Commission<br>Commission Regulation (EU) 2018/605 |

# SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

# 3.1 Substances

See below.

### 3.2 Mixtures

2.3

Classification according to Regulation (EC) No 1272/2008

| Substance name | Identification   | Classification  | SCL, M-factor, ATE | Concentration |
|----------------|--|---|--------------------|---------------|
| Propan-2-ol    | CAS no.: 67-63-0<br>EC no.: 200-661-7<br>Index no.: 603-117-00-0<br>REACH no.: 01-2119457558-25-0000 | Eye Irrit. 2, H319<br>Flam. Liq. 2, H225<br>STOT SE 3, H336 | No data available. | 15% - < 30%   |
| Ethanol        | CAS no.: 64-17-5<br>EC no.: 200-578-6<br>Index no.: 603-002-00-5<br>REACH no.: 01-2119457610-43-0350 | Flam. Liq. 2, H225  | No data available. | 5% - < 15%    |

The full text for all H-statements is displayed in section 16.

# **SECTION 4: FIRST AID MEASURES**

### 4.1 Description of first aid measures

| General notes:           | Never give anything by mouth to an unconscious person. Place patient in recovery position and ensure airway patency. When in doubt or if feeling unwell seek medical assistance. Show the safety data sheet and label to the physician. |
|--------------------------|---|
| After inhalation:        | Remove patient to fresh air - move out of dangerous area. Obtain professional medical help.   |
| After contact with skin: | Take off all contaminated clothing. Areas of the body that have come into contact with the product must be rinsed with water. If symptoms develop and persist, seek medical attention.  |
| After contact with eyes: | Immediately flush eyes with running water, keeping eyelids apart. If irritation persists, seek professional medical attention.  |
| After ingestion:         | Do not induce vomiting. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person. Consult a physician. Show the physician the safety data sheet or label.   |

# 4.2 Most important symptoms and effects, both acute and delayed

See section 11 for more detailed information on health effects and symptoms.

# **4.3** Indication of any immediate medical attention and special treatment needed Treat symptomatically.

# **SECTION 5: FIREFIGHTING MEASURES**

### 5.1 Extinguishing media

Suitable extinguishing media:Carbon dioxide. Dry chemical powder. Water spray. Alcohol resistant foam.Unsuitable extinguishing media:Full water jet.

# 5.2 Special hazards arising from the substance or mixture

| Specific hazards during<br>firefighting: | In case of a fire toxic gases can be generated; do not inhale gases/smoke. |
|--|--|
| Hazardous combustion products:           | No data available.   |

# 5.3 Advice for firefighters

Special protective equipment for firefighters:
 Additional information:
 Firefighters should wear appropriate protective clothing for firefighters (including helmets, protective boots and gloves) (BS EN 469) and self-contained breathing apparatus (SCBA) with a full face-piece (BS EN 137).
 In case of fire or heating do not breathe fumes/vapours. No action shall be taken involving any personal risk or without suitable training. Prolonged heating can cause an explosion. Vapours can form explosive mixtures with air. Cool

containers at risk with water spray. If possible remove containers from endangered area.

# **SECTION 6: ACCIDENTAL RELEASE MEASURES**

#### 6.1 Personal precautions, protective equipment and emergency procedures

| Advice for non-emergency personnel: | Use personal protective equipment (section 8). Ensure adequate ventilation. Keep away from sources of ignition and/or heat; No smoking. No action shall be taken involving any personal risk or without suitable training. Prevent access to unprotected personnel. Evacuate the danger zone. Do not breathe vapour or mist. Avoid contact with skin, eyes and clothing. |
|-------------------------------------|--|
| Advice for emergency<br>responders: | Use personal protective equipment.   |

# 6.2 Environmental precautions

Do not allow to enter drains or waterways. Prevent product from getting into subsoil/soil.

#### 6.3 Methods and material for containment and cleaning up

Stem the spill if this does not pose risks. Absorb product (with inert material), collect it in special container and dispose it to a licensed hazardous-waste disposal contractor. Use only explosion-proof instruments and equipment. Use spark-proof tools. Prevent release into the sewer, water, basements or confined areas. Ventilate the premises. Clean contaminated area with plenty of water.

#### 6.4 Reference to other sections

See also sections 7, 8 and 13.

# **SECTION 7: HANDLING AND STORAGE**

# 7.1 Precautions for safe handling

| General advice:   | Use general or local exhaust ventilation to prevent inhaling vapours and aerosols.<br>Do not discharge into drains, surface water and soil. After use immediately close<br>container tightly.  |
|---|--|
| Instructions for protection against fire and explosion: | Ensure adequate ventilation. Keep away from sources of ignition - no smoking.<br>Use spark-proof tools. Take precautionary measures against static discharges.<br>Vapours are heavier than air and spread along the floor. They form explosive<br>mixtures with air.   |
| Advice on general occupational hygiene:                 | Use good personal hygiene practices – wash hands at breaks and when done working with material. Do not eat, drink or smoke while working. Do not breathe vapours/mist. Avoid contact with skin, eyes and clothes. Remove contaminated clothes and wash them before reuse. Wear suitable protective equipment; see section 8. |

# 7.2 Conditions for safe storage, including any incompatibilities

| Requirements for storage room<br>and containers: | Close opened containers after use. Put the containers upright to prevent from leaking. Do not store in unlabelled containers.  |
|--|--|
| Further information about storage conditions:    | Keep in a cool, dry and well ventilated place. Protect from open fire, heat and direct sunlight. Keep away from food, drink and animal feeding stuffs. Keep away from oxidising substances. Keep away from sources of ignition - no smoking. Store only in original container. |
| Stocking with different products:                | Store separately from beverages, food and feed. Store separately from strong acids, bases and oxidation agents.  |

# 7.3 Specific end use(s)

See identified uses in section 1.

# SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

#### **Occupational exposure limits**

Please refer to the latest edition of the appropriate source text and consult an industrial hygienist or similar professional, or local agencies, for further information.

#### **Biological limit values**

No biological exposure limits noted for the ingredient(s).

#### **DNEL** values

| Substance name                 | Pattern of exposure                     | Route of exposure | Limit value           |
|--------------------------------|---|-------------------|-----------------------|
| Propan-2-ol<br>CAS no.:67-63-0 | Worker (short term, systemic effects)   | Inhalation        | 1000 mg/m³            |
|                                | Worker (long term, systemic effects)    | Inhalation        | 500 mg/m³             |
|                                | Consumer (short term, systemic effects) | Inhalation        | 178 mg/m <sup>3</sup> |
|                                | Consumer (long term, systemic effects)  | Inhalation        | 89 mg/m³              |
|                                | Worker (long term, systemic effects)    | Dermal            | 888 mg/kg bw/day      |
|                                | Consumer (long term, systemic effects)  | Dermal            | 319 mg/kg bw/day      |
|                                | Consumer (short term, systemic effects) | Oral              | 51 mg/kg bw/day       |
|                                | Consumer (long term, systemic effects)  | Oral              | 26 mg/kg bw/day       |
| Ethanol<br>CAS no.:64-17-5     | Worker (long term, systemic effects)    | Inhalation        | 380 mg/m³             |
|                                | Worker (short term, local effects)      | Inhalation        | 1900 mg/m³            |
|                                | Consumer (long term, systemic effects)  | Inhalation        | 114 mg/m³             |
|                                | Consumer (short term, local effects)    | Inhalation        | 950 mg/m³             |
|                                | Worker (long term, systemic effects)    | Dermal            | 343 mg/kg bw/day      |
|                                | Consumer (long term, systemic effects)  | Dermal            | 206 mg/kg bw/day      |
|                                | Consumer (long term, systemic effects)  | Oral              | 87 mg/kg bw/day       |

#### **PNEC** values

| Substance name                 | Route of exposure                  | Limit value          |  |
|--------------------------------|------------------------------------|----------------------|--|
| Propan-2-ol<br>CAS no.:67-63-0 | No data available.                 | No data available.   |  |
| Ethanol<br>CAS no.:64-17-5     | Fresh water                        | 960 µg/L             |  |
|                                | Marine water                       | 790 μg/L             |  |
|                                | Intermittent release (fresh water) | 2.75 mg/L            |  |
|                                | Sewage treatment plant             | 580 mg/L             |  |
|                                | Sediment (fresh water)             | 3.6 mg/kg dw         |  |
|                                | Sediment (marine water)            | 2.9 mg/kg dw         |  |
|                                | Soil                               | 630 µg/kg dw         |  |
|                                | Secondary poisoning                | 380 - 720 ma/ka food |  |

### 8.2 Exposure controls

### Appropriate engineering controls

See section 7. No additional measures necessary.

#### Individual protection measures

 Eye/face protection:
 Wear protective glasses during use.

 Hand protection:
 Short-term contact: Gloves with Protection Index of at least Class 2 (Norm EN 374, permeation time > 30 min) for substances of Classes A and K. Long-term contact: Gloves with Protection Index of at least Class 6 (Norm EN 374, permeation time > 480 min) for substances of Classes A and K. (Class A: primary alcohols; Class K: inorganic bases).

| Body protection:        | Not required during normal use.  |  |
|-------------------------|--|--|
| Respiratory protection: | Do not inhale gas/vapours/aerosol.   |  |
| Thermal hazards:        | No data available.   |  |
| Hygiene measures:       | Use good personal hygiene practices – wash hands at breaks and when done working with material. Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes and clothes. Do not eat, drink or smoke while working. Do not breathe vapours/aerosols. |  |

#### **Environmental exposure controls**

Observe the usual precautions for handling chemicals.

# SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

# 9.1 Information on basic physical and chemical properties

| Physical state:  | Liquid                                  |
|--|---|
| Form:  | Liquid absorbed on fleece               |
| Colour:  | Colourless                              |
| Odour:   | Of alcohol                              |
| Melting point:   | No data available.                      |
| Freezing point:  | No data available.                      |
| Boiling point or initial boiling point<br>and boiling range: | No data available.                      |
| Flammability:  | The product is flammable.               |
| Lower explosion limit:                                       | No data available.                      |
| Upper explosion limit:                                       | No data available.                      |
| Flash point:   | No data available.                      |
| Auto-ignition temperature:                                   | Not self-igniting.                      |
| Decomposition temperature:                                   | Not applicable.                         |
| pH-value (undiluted product):                                | 5.0 - 7.0                               |
| pH-value (diluted product):                                  | Not applicable (ready-to-use solution). |
| Kinematic viscosity:   | No data available.                      |
| Solubility:  | Completely miscible with water.         |
| Partition coefficient n-<br>octanol/water:                   | Not applicable.                         |
| Vapour pressure at 50 °C:                                    | No data available.                      |
| Density:   | 0.97 g/cm <sup>3</sup>                  |
| Relative density:  | 0.97                                    |
| Relative vapour density at 20 °C:                            | No data available.                      |
| •  |   |

# 9.2 Other information

| Oxidising properties: | Not oxidising.                                |
|-----------------------|---|
| Explosive properties: | Vapours can form explosive mixtures with air. |
| Evaporation rate:     | No data available.                            |
| Miscibility:          | Completely miscible with water.               |
| Other information:    | No data available.                            |

Product: actisolve® alcolite wipes

# SECTION 10: STABILITY AND REACTIVITY

# 10.1 Reactivity

The mixture is not reactive.

### 10.2 Chemical stability

Stable at normal temperatures and pressure at least up to the expiry date printed on the container. Contact with open flame may cause ignition.

### 10.3 Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

### 10.4 Conditions to avoid

Avoid heat, flames, sparks and other sources of ignition. Containers may rupture or explode if exposed to intense heat. Avoid conditions beyond those mentioned in section 7.

### 10.5 Incompatible materials

Avoid contact with materials sensitive to alcohols.

### **10.6 Hazardous decomposition products**

No dangerous decomposition products occur under normal storage and use.

# SECTION 11: TOXICOLOGICAL INFORMATION

# 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

| Information on likely routes of e | exposure   |
|-----------------------------------|--|
| Inhalation:                       | Information on effects are given below.  |
| Skin contact:                     | Information on effects are given below.  |
| Eye contact:                      | Information on effects are given below.  |
| Ingestion:                        | Information on effects are given below.  |
| Acute toxicity                    |  |
| Mixture:                          | ATEmix: LD50 (rat, ingestion) > 5000 mg/kg                                       |
| Component:                        | No data available.   |
| Skin corrosion/irritation         |  |
| Mixture:                          | No irritation is expected. Repeated exposure may cause skin dryness or cracking. |
| Component:                        | No data available.   |
| Serious eye damage/irritation     |  |
| Mixture:                          | Irritating to eyes.  |
| Component:                        | No data available.   |
| Respiratory or skin sensitizatio  | n  |
| Mixture:                          | The product is not classified as sensitising.                                    |
| Component:                        | No data available.   |
| Germ cell mutagenicity            |  |
| Mixture:                          | Not a mutagen. Does not contain ingredients with known mutagenic properties.     |
| Component:                        | No data available.   |
| Carcinogenicity                   |  |

| Mixture:                       | Does not contain ingredients with known carcinogenic properties.  |
|--------------------------------|---|
| Component:                     | No data available.  |
| Reproductive toxicity          |   |
| Mixture:                       | This product contains no ingredients with known reproductive toxicity effects.  |
| Component:                     | No data available.  |
| STOT-single exposure           |   |
| Mixture:                       | This product exhibits no known STOT-single exposure.  |
| Component:                     | No data available.  |
| STOT-repeated exposure         |   |
| Mixture:                       | This product exhibits no known STOT-repeated exposure.  |
| Component:                     | No data available.  |
| Aspiration hazard              |   |
| Mixture:                       | This product exhibits no known aspiration hazard.   |
| Component:                     | No data available.  |
| Information on other haza      | ards  |
| Endocrine disrupting propertie | S   |
| Mixture:                       | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. |
| Component:                     | No data available.  |
| Other hazards                  |   |
| Mixture:                       | No data available.  |

# SECTION 12: ECOLOGICAL INFORMATION

# 12.1 Toxicity

Component:

11.2

The release of amounts present in our packaging is not expected to have any ecotoxic effects. The release of several packages of this product can have temporary and localized toxic effects on aquatic and terrestrial organisms. This product is not expected to negatively affect the function of sewage treatment plants. There is no data available from ecotoxicological tests regarding the entire product. The ecotoxicological risk has been estimated based on available data on product ingredients and concentrations, where available.

No data available.

#### 12.2 Persistence and degradability

The product ingredients possess good biodegradation properties. Based on available data, the biodegradability in sewage treatment plants can be categorized as high.

| Substance name | Biodegradation | Basis      | Remark                 |
|----------------|----------------|------------|------------------------|
| Propan-2-ol    | 95%            | 21 D       | Readily biodegradable. |
| Ethanol        | 94%            | OECD 301 E | No data available.     |

# 12.3 Bioaccumulative potential

Mixture:

Based on available data, no product ingredient is expected to exhibit bioaccumulative potential. No data available.

#### 12.4 Mobility in soil

Component:

| M | lixture: |  |
|---|----------|--|

The product is not expected to be mobile over long distances because all product ingredients possess good biodegradability. Surface tension and absorption / desorption kinetics are not relevant to the product. No data available.

#### 12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

#### 12.6 **Endocrine disrupting properties**

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### 12.7 Other adverse effects

The product contains no ingredients with ozone depletion potential or global warming potential. The product contains no heavy metals or their compounds as defined in 2006/11/EG. The product contains no absorbable organic halogens (AOX). The product contains volatile organic compounds (VOC).

# SECTION 13: DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods

Disposal methods:

Dispose of according to national and regional provisions. Waste code EWC Nr: 070699 (Group: waste material of MFSU from fats, lubricants, soaps, detergents, disinfectants and personal protection products). Small amounts of the product (up to about 500 ml per day) can be disposed of via the sewage system after dilution 1:5 with tap water. Empty packaging can be treated like household waste or recycled after cleaning Contaminated packaging: with water. Handle the packaging containing the product in the same way as the product itself. Where available, references to local regulations regarding disposal are given in section 15 of the SDS. The user has sole responsibility for

#### acquaintance and compliance with the applicable regulations.

# SECTION 14: TRANSPORT INFORMATION

Land transport (ADR/ADN/RID)

14.1 **UN number** 

UN 3175

#### 14.2 UN proper shipping name SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (Ethanol, Propan-2-ol)

14.3 Transport hazard class(es)

4.1

14.4 Packing group

II | Danger label: 4.1 | LQ: 1 kg

# Product: actisolve® alcolite wipes

14.5 Environmental hazards

Environmental hazards: No

**14.6** Special precautions for user See sections 6 to 8.

# Sea transport (IMDG/IMO)

- 14.1 UN number UN 3175
- 14.2 UN proper shipping name SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (Ethanol, Propan-2-ol)
- **14.3 Transport hazard class(es)** 4.1
- 14.4 Packing group II | Danger label: 4.1 | LQ: 1 kg
- 14.5 Environmental hazards Environmental hazards: No Marine pollutant: No
- **14.6** Special precautions for user See sections 6 to 8.
- **14.7** Maritime transport in bulk according to IMO instruments Not applicable for product as supplied.

# Air transport (IATA)

- 14.1 UN number UN 3175
- **14.2 UN proper shipping name** SOLIDS CONTAINING FLAMMABLE LIQUID, N.O.S. (Ethanol, Propan-2-ol)
- **14.3 Transport hazard class(es)** 4.1
- 14.4 Packing group II | Danger label: 4.1 | LQ: 1 kg
- 14.5 Environmental hazards Environmental hazards: No

### 14.6 Special precautions for user

See sections 6 to 8.

# **SECTION 15: REGULATORY INFORMATION**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

The product has been classified and marked in accordance with Regulation (EC) No.1272/2008 (CLP). The product complies with requirements of Regulation (EC) No. 1907/2006 (REACH), Regulation (EC) No. 648/2004 (Detergents Regulation), Regulation (EU) No. 528/2012 (Biocides Regulation), Directive 93/42/EC (Medical Devices Directive), and Regulation (EU) No. 2017/745 on medical devices (MDR), if applicable.

#### 15.2 Chemical safety assessment

No chemical safety assessment was carried out for this product.

# **SECTION 16: OTHER INFORMATION**

# Indication of changes

- 1.1 Product identifier Updated.
- 1.2 Relevant identified uses of the substance or mixture and uses advised against Updated.
- 1.3 Details of the supplier of the safety data sheet Updated.
- 1.4 Emergency telephone number Updated.
- 2.3 Other hazards Updated.
- 4.1 Description of first aid measures Updated.
- 5.2 Special hazards arising from the substance or mixture Updated.
- 5.3 Advice for firefighters Updated.
- 6.1 Personal precautions, protective equipment and emergency procedures Updated.
- 6.2 Environmental precautions Updated.
- 7.1 Precautions for safe handling Updated.
- 7.2 Conditions for safe storage, including any incompatibilities Updated.
- 8.1 Control parameters Updated.
- 8.2 Exposure controls Updated.
- 9.1 Information on basic physical and chemical properties Updated.
- 9.2 Other information Updated.

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 / Information on toxicological effects - Updated.

- 11.2 Information on other hazards Updated.
- 12.6 Endocrine disrupting properties Updated.
- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture Updated.

# Abbreviations and acronyms

ADN - European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways

ADR - European Agreement concerning the International Carriage of Dangerous Goods by Road

ASTM - American Society for Testing and Materials

AwSV - Ordinance on facilities for handling substances that are hazardous to water

BOD - Biochemical Oxygen Demand

c.c. - Closed cup

CAS - Chemical Abstract Services

CESIO - European Committee of Organic Surfactants and their Intermediates

COD - Chemical Oxygen Demand

DMEL - Derived Minimum Effect Level

DNEL - Derived No Effect Level

EbC50 - Median concentration in terms of reduction of growth

EC - Effective concentration EINECS - European Inventory of Existing Commercial Chemical Substances EN - European Norm ErC50 - Median concentration in terms of reduction of growth rate GGVSEB - German ordinance for road, rail and inland waterway transportation of dangerous goods GGVSee - German ordinance for sea transportation of dangerous goods GLP - Good Laboratory Practice GMO - Genetic Modified Organism IATA - International Air Transport Association ICAO - International Civil Aviation Organization IMDG - International Maritime Dangerous Goods ISO - International Organization For Standardization LD/LC - Lethal dose/concentration LOAEL - Lowest Observed Adverse Effect Level LOEL - Lowest Observed Effect Level LQ - Limited Quantity M-Factor - Multiplying factor NOAEL - No Observed Adverse Effect Level NOEC - No Observed Effect Concentration NOEL - No Observed Effect Level o.c. - Open cup OECD - Organisation for Economic Cooperation and Development OEL - Occupational Exposure Limit PBT - Persistent, bioaccumulative, toxic PNEC - Predicted No Effect Concentration **REACH - REACH registration** RID - Convention concerning International Carriage by Rail SVHC - Substances of Very High Concern **TA - Technical Instructions** TRGS - Technical Rules for Hazardous Substances vPvB - Very persistent, very bioaccumulative WGK - Water Hazard Class

# Key literature references and sources for data

No data available.

# Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

| Hazard category | Hazard statement code(s) | Classification procedure           |
|-----------------|--------------------------|------------------------------------|
| Flam. Sol. 1    | H228                     | On basis of test data.             |
| Eye Irrit. 2    | H319                     | Harmonised (legal) classification. |

# List of relevant phrases

H225 Highly flammable liquid and vapour.

H319 Causes serious eye irritation.

H336 May cause drowsiness or dizziness.

# **Training information**

Comply with national laws regulating employee instruction.

The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.
